

Report from the Membership Committee of the
Sylvan Lake Improvement Association.

* * * * *

At the date of this report, June 1st, 1941, a total of fifty-nine lot owners have subscribed to membership in the association. At the present time there are seventy-six homes built or under construction in the three subdivisions.

Attached hereto is a list of lot owners in these subdivisions, with the owners who have become members of the association so indicated.

Attached also is a platt showing all lots in the subdivisions and all homes built or under construction.

The following members have agreed to work with me on the membership committee and have received copies of the above mentioned list and platt:-

Mr. Wm. Kolb.
Mr. M. A. Grainer.
Mr. F. G. Varenhorst.

The committee finds that the majority of those contacted last fall who did not apply for membership, indicated that they would be more inclined to do so if a written report outlining the organizing of the association and its future plans were available.

Since many of the lot owners were not present at the first meeting of the association in 1940 and in order to refresh the memories of those who were present it is suggested that such a report be drawn up.

A brief resume of the minutes of meetings, by-laws, membership dues received and expenditures, and a general outline of the association's plans for 1941 particularly in regard to estimates on necessary improvements which would affect the membership dues or assessments; if delivered to the lot owners before the next meeting would probably result in a better understanding of the necessity of such an association and a desire to promote it.

L. J. Haviland
Chairman
