

Sanitary System Report

As of May 12, 1965 thirty ^{two} homeowners have signed agreements to participate in the installation of a sewage system at Sylvan Lake. Several others have indicated they would also sign however.

Tuesday evening, ^{MAY 11, 65} at the Board of Supervisors meeting our plan was presented, to get approval to move ahead. This action was necessary in order to apply for the Federal grant of \$25,000 which had to be applied for by May 31, 65 + this was the last Supervisors meeting in May.

It was indicated by Mr Morris of the Public Works Dept. that the number of agreements we now have would be sufficient to go ahead with our project, However we still would like to reach our original goal of 100. I feel it would be in good taste to hold one more meeting with Mr Morris - of PW Dept, Mr Shaw Engineer + Mr Speers, Bonding House ^{consultation}

at which time minor problems
can be discussed

Sincerely
W. S. Swathers
